

## Stump Grinder Depth Prep Checklist (UK)

- ☐ Have you contacted LinesearchbeforeUdig to check for public utility lines?
- ☐ Have you identified any private underground lines (e.g. sprinkler pipes, garden lighting, shed power)?
- ☐ Have you confirmed the planned use of the area (e.g. turf, planting, paving)?
- ☐ Do you know the required grinding depth for your project?
- ☐ Have you inspected the site for surface-level obstructions?
- ☐ Are you starting with shallow grinding passes near marked utility areas?
- ☐ Do you have a way to measure your grinding depth (ruler, shovel handle, etc.)?
- ☐ If using hire equipment, do you know how to control grinding depth on your specific model?
- ☐ Have you inspected the grinder's teeth and wheel before starting?
- ☐ Do you have safety gear ready (gloves, goggles, ear protection)?
